

Dj Rush

Technical Rider :

1. 1 x Pioneer DJM 2000 Nexus 1 high quality microphone.
2. 3 x Pioneer CDJ 3000
3. Dj Rush need his own setup - No Dj before his performance is allowed to use his setup to make the transition between Djs easier.
4. 2 High powered monitors ideally at ear height. The volume control should be only operated by the Dj himself.
5. No limiter should be used in the system.
6. 1 Technical Supervisor should be available at all time in case any of problems.
7. No Live recordings are allowed without the consent of the Dj or the management.
8. The Promoter shall allow Sound Checks if requested prior to the Event.
9. The Mixer and CDJ Players should be in good technical condition otherwise the DJ has the right to not perform under such conditions.
